PROFESSIONAL SUMMARY

Information science with a focus in information security graduate from the University of South Florida with hands-on experience in cybersecurity, network security, vulnerability assessment, OSINT investigations, and data analytics. Skilled in security analysis, threat detection, network traffic analysis, and information management through academic projects and laboratory environments. Proven leadership experience supervising teams, managing operations, and resolving complex issues in fast paced environments.

TECHNICAL SKILLS

Cybersecurity: Vulnerability Assessment, Network Security, Threat Hunting, Incident Response Fundamentals, OSINT, Risk Analysis, Security Awareness

Security Tools: Nmap, Wireshark, Metasploit, Kali Linux, DVWA, Shodan, Wigle, Have I Been Pwned, SpyFu, SimilarWeb

Systems & Networking: Windows, Linux, VirtualBox, Hyper V, TCP/IP, DNS, Routing, Network Monitoring, Packet Analysis

Data Analytics: R Programming, Data Cleaning, Data Visualization, Statistical Analysis, Microsoft Excel

Professional Skills: Leadership, Team Management, Technical Documentation, Communication, Problem Solving, Training & Mentoring

EDUCATION

University of South Florida
Bachelor of Science in Information Science
Concentration: Information Security
Expected Graduation: August 2026

TECHNICAL PROJECTS

Network Traffic Analysis & Threat Investigation: Conducted packet capture and analysis using Wireshark to identify network communications and suspicious activity.

Vulnerability Assessment & Enumeration: Performed reconnaissance, scanning, and enumeration using Nmap and Kali Linux within virtualized environments.

OSINT Intelligence Collection: Leveraged Shodan, Wigle, Have I Been Pwned,

SimilarWeb, SpyFu, and related tools to gather and analyze publicly available information.

Incident Response & Security Analysis: Participated in threat hunting and security investigations involving network traffic analysis and reporting.

Data Analytics Projects: Cleaned, transformed, analyzed, and visualized datasets using SQL and R programming.

PROFESSIONAL EXPERIENCE

Shift Lead | Insomnia Cookies | 2024–2026

Supervised daily operations, managed inventory and cash handling, trained employees, coordinated order fulfillment, and resolved operational issues.

Customer Service Representative | CBSI Holdings | 2023–2024

Managed communications, documented customer information, scheduled appointments, and maintained professional client interactions.

Recreational Assistant | MWR Fitness Center | 2023

Assisted with facility operations, memberships, customer support, and administrative tasks.

Cashier/Food Service Associate | AAFES Pizza Hut & Base Exchange | 2021–2022 Provided customer service, handled transactions, and supported operational activities.

CERTIFICATIONS

Planned: CompTIA Security+ (by August 2026)
